

SB Cigars Factory is an enterprise that has continuous working experience and decades of knowledge in the cigars industry. Its founder, Simón Beltré, is a 4th generation of tobacco producers, work in which he got involved at a very early age at the hand of his grand-father and his father. Hence his passion for smoking good cigars and to produce premium cigars whilst offering to others his knowledge and passion for this art.

Our raw material is allowed to age properly, therefore our cigars are valued as premium products.

Our blends are meticulously selected and carefully mixed to create a complex, creamy, smooth and delicate smoke to please your palate. This guarantee a high acceptance and appreciation of our products in the markets where they are being distributed.

Our cigars are 100% hand-made by dominican artisans with more than 10 years of experience in the business.
